Join us for an informative and fun geology workshop, presented **free of charge** by Fernbank Science Center and the National Park Service. Instruction will focus on local rocks and minerals, the rock cycle, weathering and erosion, and geology of the Chattahoochee River watershed and Brevard fault zone. All participants will receive a complimentary rock kit. Morning instruction will take place at the Island Ford Visitor Center, and afternoon instruction at the Palisades park unit, weather permitting.

Register using IDMS by **September 20**. Spaces are limited. For more information, contact Bill Witherspoon via First Class.
